

Every golfer's dream

Have you got dead space in your office, home, bar, allotment, shed, kid's bedroom? If you haven't, find some because we have found the product that every golfer needs

With its revolutionary 3trak ball camera system, the aboutGolf simulator is far and away the world's most accurate indoor golf simulator offering an unsurpassed level of entertainment and training capabilities. When coupled with a quality of build and integrity of components, aboutGolf truly is the only choice for your simulator requirements.

Along with creating a fully immersive gaming environment, the durability and functionality afforded by the aboutGolf system, delivered as a result of a vast amount of research and development, enables a player to enjoy full rounds of golf in the comfort of their own home. Providing an accurate representation of every drive, pitch, chip and putt; the aboutGolf simulator offers the opportunity to play and practise a full range of shots from a five-yard pitch to 300 yard drive, wherever and whenever.

While many people worry about the space sacrificed for the placement of a golf simulator, the aboutGolf team design, commission and install your customised simulator to ensure the most

aesthetically pleasing and ergonomic installation possible. Their premium home fitting team have created a number of unique residential simulator builds and can, if required, incorporate the highest level of audio visual experience along with the integration of seating, drinks cabinets, club holders and lighting.

As well as its very impressive entertainment quality and playability, the aboutGolf system also provides a fantastic training tool. The installation of aG Flix and aG Balance turns the simulator into a golf swing analysis unit, giving instant tangible feedback, allowing users to improve their performance at their convenience. For evidence of how performance could be improved with the installation of an aboutGolf simulator, look no further than the placement of a unit in Ryder Cup stalwart Luke Donald's Chicago home (Ryder Cup qualification is not guaranteed as part of the aboutGolf warranty...).

As we work our way through this fantastic summer of sport – from a little-known football tournament in South America to a transatlantic

golf match in Scotland – you don't want to miss a second. aboutGolf's latest product, aG Portal, allays this issue and allows you to enjoy picture in picture viewing; providing a golfer the opportunity to enjoy the footballing masterclass that will be Nigeria v Bosnia-Herzegovina while battling the links of Pebble Beach.

aG Portal allows your simulator to access content from aboutGolf's library, local cable or by external device; providing one screen on which golf, music, movies and television can all be enjoyed. The high definition image, coupled with the high quality AV integration, make the aboutGolf simulator the ideal family entertainment destination each and every day.
